

## **DEFECT 01**

Defect Summary: After User logged out from the profile User Information page is still displayed.

Severity : High

Priority:High

Defect Description: After a user logged out user information page should not be displayed and page should be refreshed to main page with “Popular Make”, “Popular Model” and “Overall Rating”, but in the current build User Information page is displayed with user details after user logged out from profile. Update and save after login out gives an “Unknown error” message.

Steps:

- 1) Go to URL <https://buggy.justtestit.org/>
- 2) Enter valid user name and password and click login
- 3) Click on profile
- 4) Click logout

Expected Outcome: Main page should be displayed with “Popular Make”, “Popular Model” and “Overall Rating”

Actual Outcome : User Information is displayed after user logout , page is not refreshed.

Screenshots

The screenshot shows a web browser at the URL [buggy.justtestit.org/profile](https://buggy.justtestit.org/profile). The page header includes the site name "Buggy Rating" and navigation links for "Login" and "Register". The main content area features the "Buggy Cars Rating" logo and a car illustration. Below this, there are three panels: "Basic", "Additional Info", and "Change Password". The "Basic" panel contains fields for "Login" (testuser5), "First Name" (test1), and "Last Name" (test2), with a green success message "The profile has been saved successful". The "Additional Info" panel includes fields for "Gender" (Male), "Age" (25), "Address" (test), "Phone", and "Hobby". The "Change Password" panel has fields for "Current Password", "New Password", and "Confirm Password", along with a "Language" dropdown set to "English". At the bottom, there are "Save" and "Cancel" buttons, a copyright notice "© 2016 Buggy Software, Inc.", and social media icons for Facebook and Twitter.

Note: If you try to update information after a user is logged out , It gives an "Unknown Error" message and user data is not updated.

The screenshot displays the 'Buggy Cars Rating' website interface. At the top, there is a dark header with the site name and login/register buttons. Below the header, a light gray banner features the site title and a line-art illustration of a sports car. The main content area contains three registration forms. The 'Basic' form on the left has fields for 'Login' (containing 'testuser5'), 'First Name' (containing 'test1'), and 'Last Name' (containing 'test2'), with a red 'Unknown error' message at the bottom. The 'Additional Info' form in the middle includes fields for 'Gender' (Female), 'Age' (25), 'Address' (test), 'Phone', and a 'Hobby' dropdown. The 'Additional Info' form on the right is titled 'Change Password' and includes fields for 'Current Password', 'New Password', and 'Confirm Password', along with a 'Language' dropdown set to 'English'. 'Save' and 'Cancel' buttons are located at the bottom right of the forms. The footer contains the copyright notice '© 2016 Buggy Software, Inc.' and social media icons for Facebook and Twitter.

## **DEFECT 02**

Defect Summary: “Author” is not captured in Vote details table for some car Makes

Severity : High

Priority:High

Defect Description: In vote details table first name or username of the user who added the vote should be displayed under “Author” column , in current build “Author” is not for some car models like Alfa Romeo models , Lamborghini models ,Pagani models etc. For some models Like Lancia Delta Author is displayed.

Steps:

- 1) Go to URL <https://buggy.justtestit.org/>
- 2) Enter valid user name and password and click login
- 3) Click overall rating and click alfa romeo , Mito car model
- 4) Verify vote details table “Date” , “Author” , “Comment”

Expected Outcome: User name or first name of the user who added the vote should be displayed under “Author ” column along with other details for all car models.

Actual Outcome : “Author” not displayed in vote details table for some car models.

Screenshot:

Guilia Quadrifoglio

New Giulia Quadrifoglio represents more than the most powerful Alfa Romeo ever created for street use. It represents a convergence of engineering and emotion that can only belong to a brand as fabled as Alfa Romeo.

Here's to a sports badge born 106 years ago that still stands for something totally original today: a passion for motoring unlike any other. Visceral. Energetic. Technological. Crafted.

The technology behind New Giulia Quadrifoglio is created to enhance performance and to give great driving sensations. The human/machine relationship is always at the core of a **innovation to create** car that is a natural extension of the body, the mind and the heart of the driver.

Ypsilon

Distinctive and intriguing new supermini, but Twinair engine is at odds with **Ypsilon**'s luxury positioning.

The Twinair, while impressively torquey and incredibly willing to work seamlessly around to the rev limiter, also has a very vocal, thrumming soundtrack. There's no doubt that this remarkable little motor rather encourages the driver to press-on, swapping up and down the 'box to exploit the performance. To that end, the shift action is pretty (although not completely) clean and the lever very well-placed.

## Alfa Romeo

The company that became **Alfa Romeo** was founded as Società Anonima Italiana Darracq (SAID) in 1906 by the French automobile firm of Alexandre Darracq, with some Italian investors. In late 1909, the Italian Darracq cars were selling slowly and the Italian partners of the company hired Giuseppe Merosi to design new cars. On June 24, 1910, a new company was founded named A.L.F.A., initially still in partnership with Darracq. The first non-Darracq car produced by the company was the 1910 24 HP, designed by Merosi. A.L.F.A. ventured into motor racing, with drivers Franchini and Ronzoni competing in the 1911 Targa Florio with two 24-hp models. In August 1915, the company came under the direction of Neapolitan entrepreneur Nicola Romeo, who converted the factory to produce military hardware for the Italian and Allied war efforts. In 1920, the name of the company was changed to Alfa Romeo with the Torpedo 20-30 HP the first car to be so badged.

Alfa Romeo has competed successfully in many different categories of motorsport, including Grand Prix motor racing, Formula One, sportscar racing, touring car racing, and rallies. It has competed both as a constructor and an engine supplier, via works entries (usually under the name Alfa Corse or Autodelta), and private entries. The first racing car was made in 1913, three years after the foundation of the company, and Alfa Romeo won the inaugural world championship for Grand Prix cars in 1925. The company gained a good name in motorsport, which gave a sporty image to the whole marque. Enzo Ferrari founded the Scuderia Ferrari racing team in 1929 as an Alfa Romeo racing team, before becoming independent in 1939. It holds the world's title of the most wins of any marque in the world.

## DEFECT 05:

Defect Summary:Vote details not added to Vote details table when user voted without a comment

Severity : High

Priority:High

Defect Description: Record for vote is not added to vote detail table when use voted without adding a comment

Steps:

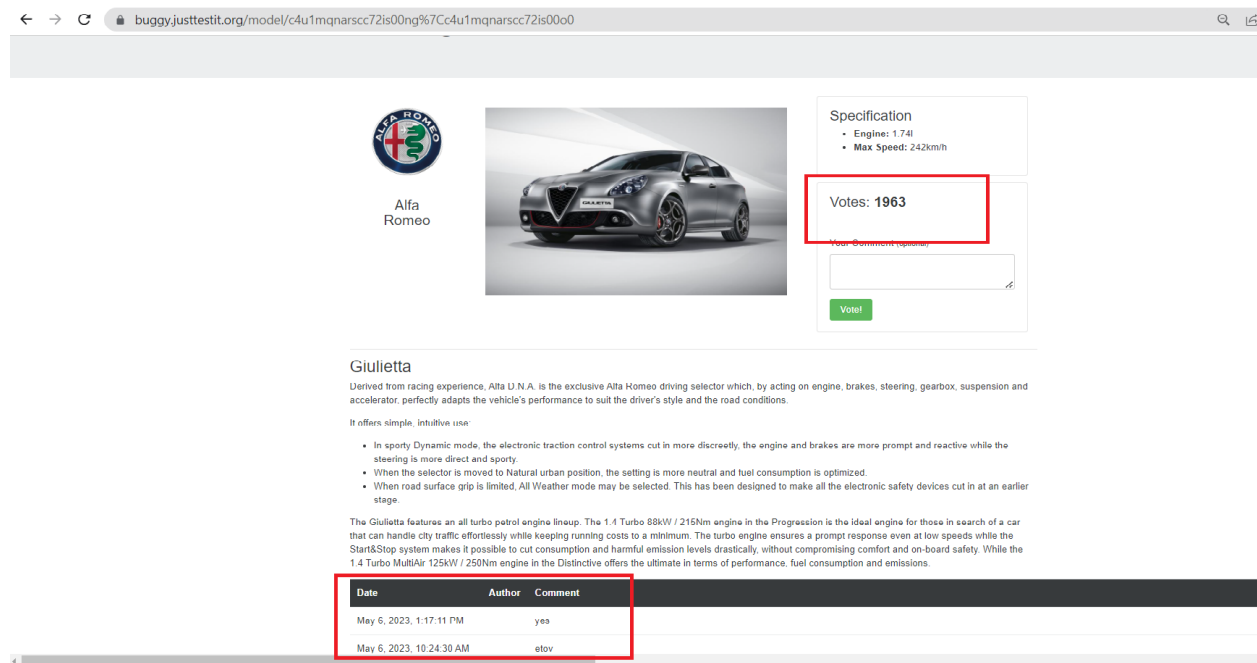

- 1) Go to URL <https://buggy.justtestit.org/>
- 2) Enter valid user name and password and click login - (user should not have added a comment before)
- 3) Click Popular Model and click on vote button without a comment
- 4) Verify the Vote details table

Expected Outcome: Vote should be added with Date and Author and empty for comment

Actual Outcome : Record for vote without a comment is not added in vote table below.

Vote!

### Giulietta

Derived from racing experience, Alfa U.N.A. is the exclusive Alfa Romeo driving selector which, by acting on engine, brakes, steering, gearbox, suspension and accelerator, perfectly adapts the vehicle's performance to suit the driver's style and the road conditions.

It offers simple, intuitive use

- In sporty Dynamic mode, the electronic traction control systems cut in more discreetly, the engine and brakes are more prompt and reactive while the steering is more direct and sporty.
- When the selector is moved to Natural urban position, the setting is more neutral and fuel consumption is optimized.
- When road surface grip is limited, All Weather mode may be selected. This has been designed to make all the electronic safety devices cut in at an earlier stage.

The Giulietta features an all turbo petrol engine lineup. The 1.4 Turbo 88kW / 215Nm engine in the Progression is the ideal engine for those in search of a car that can handle city traffic effortlessly while keeping running costs to a minimum. The turbo engine ensures a prompt response even at low speeds while the Start&Stop system makes it possible to cut consumption and harmful emission levels drastically, without compromising comfort and on-board safety. While the 1.4 Turbo MultiAir 125kW / 250Nm engine in the Distinctive offers the ultimate in terms of performance, fuel consumption and emissions.

## DEFECT 06:

Defect Summary: User cannot add the hobby "Knitting" in user information page

Severity : Medium

Priority:Medium

Defect Description: User is not able to add the hobby "Knitting" in user information page , error populated "Unknown error"

Steps:

- 1) Go to URL <https://buggy.justtestit.org/>
- 2) Enter valid user name and password and click login
- 3) Click profile and update information with hobby "Knitting"
- 4) Click Save

Expected Outcome: User should be able to add hobby "Knitting", update should be successful.

Actual Outcome : Populate "Unknown error " when save button is clicked.

Screenshot:

The screenshot shows the 'Buggy Cars Rating' application interface. At the top, there is a navigation bar with 'Buggy Rating' on the left and 'Hi, test2 Profile Logout' on the right. Below the navigation bar, the title 'Buggy Cars Rating' is displayed next to a car illustration. The main content area contains a registration form with two tabs: 'Basic' and 'Additional Info'. The 'Basic' tab is active and shows fields for 'Login' (containing 'testuser6'), 'First Name' (containing 'test2'), and 'Last Name' (containing 'test2'). Below these fields, a red error message 'Unknown error' is displayed. The 'Additional Info' tab is also visible, showing fields for 'Gender' (Male), 'Age' (35), 'Address' (test), 'Phone', and 'Hobby' (Knitting). A 'Change Password' section is also present, with fields for 'Current Password', 'New Password', and 'Confirm Password'. At the bottom of the form, there are 'Save' and 'Cancel' buttons.

## **DEFECT 07**

Defect Summary: Error message not meaningful when registering a user with space for user ID

Severity : Medium

Priority:Medium

Defect Description: When a user ID is entered with space and try to register user with valid data for other fields , error message populated for user id field which is not meaningful.

Steps:

- 1) Go to URL <https://buggy.justtestit.org/>
- 2) Click Register button
- 3) Enter a value with space for User ID
- 4) Enter valid values for other mandatory fields
- 5) Click Register

Expected Outcome: Meaningful error message should be displayed for user ID field.

Actual Outcome : Error message "InvalidParameterException: 1 validation error detected: Value at 'username' failed to satisfy constraint: Member must satisfy regular expression pattern: [p{L}\p{M}\p{S}\p{N}\p{P}]+" displayed which is not meaningful to user.
